Part 1  Learn at Your Own Pace

1  Introduction to Active Directory

  Why This Chapter Matters ................................................. 1-3
  Before You Begin .......................................................... 1-3
  Lesson 1: Active Directory Overview ................................ 1-4
    Understanding Directory Services .................................. 1-4
    Why Have a Directory Service? ...................................... 1-5
    Active Directory Services Features ................................. 1-6
  Active Directory Components ........................................... 1-9
  Catalog Services—The Global Catalog ............................... 1-17
  Lesson Review ............................................................... 1-19
  Lesson Summary ............................................................ 1-20

Lesson 2: Understanding Active Directory Concepts and Administration Tasks 1-21

Repliation ................................................................. 1-21

What do you think of this book? We want to hear from you!
Microsoft is interested in hearing your feedback about this publication so we can continually improve our books and learning resources for you. To participate in a brief online survey, please visit: www.microsoft.com/learning/booksurvey/
2 Installing and Configuring Active Directory

Why This Chapter Matters ........................................... 2-1
Before You Begin ..................................................... 2-2
Lesson 1: Preparing for Active Directory Installation .......... 2-3
   Active Directory Installation Prerequisites ................. 2-3
   Determining the Domain Structure .......................... 2-3
   Determining the Domain Name ................................. 2-9
   Determining the Storage Location of the Database and Log Files .... 2-11
   Determining the Location of the Shared System Volume Folder ...... 2-11
   Determining the DNS Configuration Method .................. 2-12
   Determining the DNS Configuration .......................... 2-12
   Practice: Configuring a Static IP Address and Preferred DNS Server .... 2-15
   Lesson Review ................................................. 2-16
   Lesson Summary ................................................ 2-16
Lesson 2: Installing and Removing Active Directory .......... 2-18
   Installing Active Directory .................................... 2-18
   Removing Active Directory Services from a Domain Controller .... 2-31
   Practice: Installing and Removing Active Directory .......... 2-33
   Practice: Fixing a DNS Configuration and Installing Active Directory .... 2-34
   Lesson Review .................................................. 2-36
   Lesson Summary ................................................ 2-36
### 3 Administering Active Directory

#### Why This Chapter Matters

After completing this chapter, you will be able to:

- **Lesson 1:** Using Active Directory Administration Tools
  - Practice: Viewing Active Directory Administration Tools
  - Lesson Review
  - Lesson Summary

- **Lesson 2:** Customizing MMCs
  - The MMC
  - Using MMCs for Remote Administration
  - Creating Custom MMCs
  - Modifying Custom MMCs
  - Practice: Customizing an MMC
  - Lesson Review
  - Lesson Summary

- **Lesson 3:** Backing Up Active Directory
  - Preliminary Backup Tasks
  - Creating an Active Directory Backup
  - Scheduling Active Directory Backup Operations
  - Deleting Scheduled Active Directory Backup Operations
4 Installing and Managing Domains, Trees, and Forests

Why This Chapter Matters .................................................. 4-1
Before You Begin ............................................................... 4-2

Lesson 1: Creating Multiple Domains, Trees, and Forests .......... 4-3
    Creating Multiple Domains ............................................. 4-3
    Creating Additional Domains ....................................... 4-6
    Creating Multiple Trees .............................................. 4-9
    Creating Additional Trees .......................................... 4-11
    Creating Multiple Forests ......................................... 4-12
    Creating Additional Forests ...................................... 4-14
    Practice: Creating a Child Domain ............................... 4-16
    Lesson Review .......................................................... 4-16
    Lesson Summary ....................................................... 4-17

Lesson 2: Renaming and Restructuring Domains and Renaming Domain Controllers ........................................... 4-18
    Renaming and Restructuring Domains ............................ 4-18
    Renaming a Domain Controller ................................... 4-19
    Practice: Renaming a Domain Controller ....................... 4-21
    Lesson Review .......................................................... 4-21
    Lesson Summary ....................................................... 4-22
Lesson 3: Managing Operations Master Roles
Operations Master Roles
Forest-Wide Operations Master Roles
Domain-Wide Operations Master Roles
Managing Operations Master Roles
Planning Operations Master Locations
Viewing Operations Master Role Assignments
Transferring an Operations Master Role Assignment
Seizing an Operations Master Role Assignment
Practice: Viewing and Transferring Operations Master Role Assignments
Lesson Review
Lesson Summary

Lesson 4: Managing Trust Relationships
Trust Relationships
Planning Trust Relationships
Creating Trust Relationships
Practice: Managing Trust Relationships
Lesson Review
Lesson Summary
Troubleshooting Lab
Case Scenario Exercise
Chapter Summary
Exam Highlights
Key Points
Key Terms
Questions and Answers

5 Configuring Sites and Managing Replication
Why This Chapter Matters
Before You Begin
Lesson 1: Understanding Sites and Replication
Understanding Sites
Understanding Replication
Lesson Review
Lesson Summary
Lesson 2: Configuring Sites
Configuring Sites
Creating Sites
Creating Subnets
Creating, Moving, and Removing Domain Controller Objects in a Site
# Table of Contents

- Designating a Site License Server ........................................... 5-19  
- Practice: Configuring Sites .................................................... 5-21  
- Lesson Review ................................................................. 5-23  
- Lesson Summary ............................................................... 5-23  

**Lesson 3: Configuring Intersite Replication**  ........................................... 5-25  
  - Configuring Intersite Replication ........................................ 5-25  
  - Creating Site Links ...................................................... 5-25  
  - Configuring Site Link Attributes .................................... 5-28  
  - Designating a Preferred Bridgehead Server ....................... 5-31  
  - Creating Site Link Bridges ............................................ 5-33  
  - Creating and Configuring Connection Objects .................... 5-34  
  - Practice: Configuring Intersite Replication .................... 5-37  
  - Lesson Review .......................................................... 5-39  
  - Lesson Summary ......................................................... 5-40  

**Lesson 4: Configuring Global Catalog Servers** .................................. 5-41  
  - Understanding Global Catalog Servers .............................. 5-41  
  - Creating or Removing a Global Catalog ............................. 5-44  
  - Enabling the Universal Group Membership Caching Feature .... 5-45  
  - Lesson Review .......................................................... 5-46  
  - Lesson Summary ......................................................... 5-47  

**Lesson 5: Configuring Application Directory Partitions** ..................... 5-48  
  - Application Directory Partitions .................................... 5-48  
  - Application Directory Partition Replication ...................... 5-49  
  - Application Directory Partitions and Domain Controller Demotion 5-50  
  - Security Descriptor Reference Domain ............................. 5-51  
  - Managing Application Directory Partitions ....................... 5-52  
  - Lesson Review .......................................................... 5-57  
  - Lesson Summary ......................................................... 5-58  

**Lesson 6: Monitoring and Troubleshooting Replication** ....................... 5-59  
  - Monitoring and Troubleshooting Replication ...................... 5-59  
  - Troubleshooting Active Directory Replication ................... 5-67  
  - Practice: Monitoring and Troubleshooting Active Directory Replication 5-70  
  - Lesson Review .......................................................... 5-71  
  - Lesson Summary ......................................................... 5-72  

**Troubleshooting Lab** .......................................................... 5-73  
**Case Scenario Exercise** ...................................................... 5-74  
**Chapter Summary** ............................................................. 5-76  
**Exam Highlights** .............................................................. 5-77  
**Key Points** ................................................................. 5-77
6 Implementing an OU Structure

Why This Chapter Matters ................................................. 6-1
Before You Begin .......................................................... 6-1
Lesson 1: Understanding OUs ............................................. 6-3
  Understanding OUs ....................................................... 6-3
  Defining OUs to Delegate Administration ......................... 6-3
  Defining OUs to Administer Group Policy ......................... 6-7
  Defining OUs to Hide Objects ........................................ 6-7
  Designing OU Structures ............................................... 6-8
  Lesson Review ............................................................ 6-8
  Lesson Summary .......................................................... 6-9
Lesson 2: Creating an OU Structure .................................... 6-10
  Creating OUs .............................................................. 6-10
  Creating OUs to Hide Objects ........................................ 6-11
  Practice: Creating an OU ............................................... 6-12
  Lesson Review ............................................................ 6-14
  Lesson Summary .......................................................... 6-14
Lesson 3: Administering OUs .............................................. 6-15
  Administering OUs ....................................................... 6-15
  Practice: Administering OUs ......................................... 6-21
  Lesson Review ............................................................ 6-22
  Lesson Summary .......................................................... 6-23
Case Scenario Exercise ..................................................... 6-23
Troubleshooting Lab .......................................................... 6-25
Chapter Summary ............................................................ 6-27
Exam Highlights ............................................................. 6-27
  Key Points ................................................................. 6-27
  Key Terms ................................................................. 6-28
Questions and Answers ..................................................... 6-29

7 Administering User Accounts

Why This Chapter Matters .................................................. 7-1
Before You Begin ............................................................ 7-2
Lesson 1: Understanding User Accounts ................................ 7-3
  Understanding User Accounts ........................................ 7-3
  Local User Accounts .................................................... 7-4
  Domain User Accounts .................................................. 7-4
  Built-In User Accounts .................................................. 7-5
Table of Contents

Domain User Account Naming Conventions ............................................ 7-6
Password Requirements and Guidelines ............................................... 7-7
Using Smart Cards .................................................................................. 7-8
Lesson Review ....................................................................................... 7-11
Lesson Summary .................................................................................... 7-11
Lesson 2: Creating User Accounts .......................................................... 7-13
Creating Domain User Accounts ............................................................ 7-13
Modifying Domain User Account Properties ........................................ 7-16
Practice: Creating, Modifying, and Verifying Domain User Accounts .... 7-21
Lesson Review ....................................................................................... 7-25
Lesson Summary .................................................................................... 7-26
Lesson 3: Managing User Profiles and Home Folders ......................... 7-27
Understanding User Profiles .................................................................. 7-27
User Profile Types .................................................................................. 7-29
User Profiles Settings in Group Policy ................................................... 7-31
Creating User Profiles .......................................................................... 7-31
Practice: Managing User Profiles .......................................................... 7-37
Best Practices for User Profiles ............................................................... 7-39
Home Folders ......................................................................................... 7-39
Creating Home Folders on a Server ....................................................... 7-40
Practice: Managing Home Folders .......................................................... 7-41
Lesson Review ....................................................................................... 7-42
Lesson Summary .................................................................................... 7-43
Lesson 4: Maintaining User Accounts ...................................................... 7-44
Renaming, Disabling, Enabling, and Deleting User Accounts ............... 7-44
Unlocking User Accounts and Resetting Passwords ............................ 7-45
Practice: Administering User Accounts ................................................ 7-46
Lesson Review ....................................................................................... 7-48
Lesson Summary .................................................................................... 7-48
Case Scenario Exercise ......................................................................... 7-49
Troubleshooting Lab ................................................................................ 7-50
Chapter Summary .................................................................................. 7-52
Exam Highlights ..................................................................................... 7-52
Key Points ............................................................................................... 7-52
Key Terms ............................................................................................... 7-53
Questions and Answers .......................................................................... 7-54

8 Administering Groups

Why This Chapter Matters ...................................................................... 8-1
Before You Begin ..................................................................................... 8-1
Lesson 1: Understanding Groups
- Introduction to Groups
- Group Types
- Group Scopes
- Group Membership
- Group Nesting.
- Local Groups
- Default Groups
- Planning Groups
- Practice: Planning New Group Accounts
- Group Accounts Planning Worksheet
- Group Accounts Planning Worksheet (Answers)
- Lesson Review
- Lesson Summary

Lesson 2: Creating and Administering Groups
- Creating a Group
- Deleting a Group
- Adding Members to a Group
- Changing the Group Scope
- Practice: Creating and Administering Groups
- Lesson Review
- Lesson Summary

Lesson 3: Administration Strategies
- Why You Should Not Run Your Computer as an Administrator
- Using the Run As Program
- Practice: Using Run As to Start a Program as an Administrator
- Lesson Review
- Lesson Summary

Case Scenario Exercise

Troubleshooting Lab

Questions and Answers

9 Administering Active Directory Objects

Why This Chapter Matters

Before You Begin

Lesson 1: Locating Active Directory Objects
Table of Contents

Locating Active Directory Objects ................................................. 9-3
Using Saved Queries ................................................................. 9-8
Practice: Locating Objects in Active Directory .......................... 9-10
Lesson Review ......................................................................... 9-13
Lesson Summary .................................................................. 9-13

Lesson 2: Controlling Access to Active Directory Objects .......... 9-15
Understanding Access Control .................................................. 9-15
Assigning Standard Permissions .............................................. 9-23
Administering Special Permissions ........................................... 9-24
Setting Inheritance for a Permission ......................................... 9-25
Changing Inherited Permissions ................................................ 9-27
Selective Authentication ............................................................ 9-28
Removing Security Principals and Their Permissions ............. 9-29
Removing Special Permissions .................................................. 9-30
Transferring Object Ownership ............................................... 9-30
Practice: Controlling Access to Active Directory Objects ...... 9-32
Lesson Review ......................................................................... 9-34
Lesson Summary .................................................................. 9-35

Lesson 3: Delegating Administrative Control of Active Directory Objects .................................................. 9-36
Delegating Administrative Control ........................................... 9-36
Lesson Review ......................................................................... 9-41
Lesson Summary .................................................................. 9-42

Troubleshooting Lab .................................................................. 9-42
Case Scenario Exercise ............................................................... 9-43
Chapter Summary ..................................................................... 9-45
Exam Highlights ........................................................................ 9-46
Key Points .................................................................................. 9-46
Key Terms .................................................................................. 9-47
Questions and Answers ............................................................. 9-48

10 Implementing Group Policy

Why This Chapter Matters ........................................................... 10-1
Before You Begin .................................................................... 10-1

Lesson 1: Understanding Group Policy ....................................... 10-3
Understanding Group Policies .................................................... 10-3
Understanding GPOs ................................................................. 10-4
Group Policy Settings ................................................................. 10-7
Administrative Templates ......................................................... 10-13
How Group Policy Affects Startup and Logging On .................. 10-15
How Group Policy Is Applied .................................................... 10-16
Using Security Groups to Filter GPO Scope ......................... 10-20
Using WMI Queries to Filter GPO Scope ........................... 10-20
Delegating Control of GPOs ........................................ 10-20
Resultant Set of Policy (RSoP) ..................................... 10-20
Lesson Review ....................................................... 10-21
Lesson Summary ..................................................... 10-21
Lesson 2: Group Policy Planning Strategies ....................... 10-23
  Group Policy Planning Strategies ............................... 10-23
  Plan Group Policy Settings ..................................... 10-23
  Planning GPOs .................................................... 10-23
  Planning Administrative Control of GPOs ..................... 10-26
  Lesson Review ..................................................... 10-28
  Lesson Summary .................................................. 10-29
Lesson 3: Implementing a GPO ....................................... 10-30
  Implementing a GPO ............................................... 10-30
  Creating a GPO .................................................... 10-30
  Creating an MMC for a GPO ..................................... 10-31
  Delegating Control of a GPO .................................... 10-32
  Configuring Group Policy Settings .............................. 10-35
  Disabling Unused Group Policy Settings ....................... 10-36
  Indicating GPO Processing Exceptions ........................ 10-37
  Filtering GPO Scope with Security Groups ..................... 10-39
  Linking a GPO ..................................................... 10-40
  Modifying a GPO .................................................. 10-41
  Removing a GPO Link ............................................. 10-41
  Deleting a GPO .................................................... 10-41
  Editing a GPO and GPO Settings ................................. 10-42
  Refreshing a GPO ................................................ 10-42
  Group Policy Best Practices .................................... 10-43
  Practice: Implementing a GPO ................................. 10-44
  Lesson Review ..................................................... 10-46
  Lesson Summary .................................................. 10-48
Case Scenario Exercise ............................................... 10-48
Troubleshooting Lab ................................................ 10-51
Chapter Summary ................................................... 10-54
Exam Highlights ..................................................... 10-54
  Key Points .......................................................... 10-55
  Key Terms .......................................................... 10-55
Questions and Answers ............................................... 10-56
# Administering Group Policy

## Why This Chapter Matters

## Before You Begin

### Lesson 1: Managing Group Policy with RSoP

- Understanding RSoP
- Generating RSoP Queries with the Resultant Set Of Policy Wizard
- Generating RSoP Queries with the Gpresult Command-Line Tool
- Generating RSoP Queries with the Advanced System Information–Policy Tool
- Delegating Control of RSoP
- Practice: Generating RSoP Queries
- Lesson Review
- Lesson Summary

### Lesson 2: Managing Special Folders with Group Policy

- Folder Redirection
- Default Special Folder Locations
- Setting Up Folder Redirection
- Policy Removal Considerations
- Folder Redirection and Offline Files
- Folder Redirection Best Practices
- Practice: Managing Special Folders
- Lesson Review
- Lesson Summary

### Lesson 3: Troubleshooting Group Policy

- Troubleshooting Group Policy
- Group Policy Troubleshooting Scenarios
- Lesson Review
- Lesson Summary

### Case Scenario Exercise

### Troubleshooting Lab

### Chapter Summary

### Exam Highlights

### Key Points

### Key Terms

### Questions and Answers

# Deploying Software with Group Policy

## Why This Chapter Matters

## Before You Begin

### Lesson 1: Understanding Software Deployment with Group Policy
| Understanding Software Deployment with Group Policy | 12-3 |
| Software Installation Extension | 12-4 |
| Add Or Remove Programs in Control Panel | 12-7 |
| Software Deployment Approaches | 12-7 |
| Software Deployment Processes | 12-8 |
| Distributing Windows Installer Packages | 12-9 |
| Lesson Review | 12-11 |
| Lesson Summary | 12-12 |

**Lesson 2: Deploying Software with Group Policy** | 12-13 |
| Deploying Software with Group Policy | 12-13 |
| Planning and Preparing a Software Deployment | 12-13 |
| Setting Up an SDP | 12-15 |
| Creating a GPO and a GPO Console for Software Deployment | 12-15 |
| Specifying Software Deployment Properties for the GPO | 12-16 |
| Adding Windows Installer Packages to the GPO and Selecting Package Deployment Method | 12-20 |
| Setting Windows Installer Package Properties | 12-21 |
| Software Deployment Best Practices | 12-28 |
| Practice: Deploying Software with Group Policy | 12-29 |
| Lesson Review | 12-33 |
| Lesson Summary | 12-34 |

**Lesson 3: Maintaining Software Deployed with Group Policy** | 12-35 |
| Redeploying Applications Deployed with Group Policy | 12-35 |
| Upgrading Applications Deployed with Group Policy | 12-35 |
| Removing Applications Deployed with Group Policy | 12-38 |
| Lesson Review | 12-40 |
| Lesson Summary | 12-41 |

**Lesson 4: Troubleshooting Software Deployed with Group Policy** | 12-42 |
| Troubleshooting Software Deployed with Group Policy | 12-42 |
| Software Deployment Troubleshooting Scenarios | 12-43 |
| Lesson Review | 12-47 |
| Lesson Summary | 12-48 |

**Case Scenario Exercise** | 12-48 |
**Troubleshooting Lab** | 12-50 |
**Chapter Summary** | 12-52 |
**Exam Highlights** | 12-53 |
**Key Points** | 12-53 |
**Key Terms** | 12-54 |
**Questions and Answers** | 12-55 |

14 Managing Active Directory Performance

Why This Chapter Matters .......................................................... 14-1
Before You Begin ..................................................................... 14-1
Lesson 1: Monitoring Performance with Service Logs and System Monitor ... 14-2
  Understanding the Directory and File Replication Service Logs ........ 14-2
  Understanding System Monitor ................................................ 14-3
  Monitoring Performance with the Directory Service Log and System
  Monitor Best Practices ............................................................. 14-13
  Directory Service Log and System Monitor Troubleshooting ......... 14-14
  Practice: Using System Monitor .............................................. 14-16
  Lesson Review ........................................................................ 14-17
  Lesson Summary ...................................................................... 14-17
Lesson 2: Monitoring Performance with Performance Logs And Alerts .... 14-19
  The Performance Logs And Alerts Snap-In ................................. 14-19
  Managing Active Directory Performance from the Command Line .... 14-30
  Monitoring Performance with Performance Logs And Alerts
  Best Practices ........................................................................ 14-31
  Performance Logs And Alerts Troubleshooting ........................... 14-32
### Practice: Using Performance Logs And Alerts
- Lesson Review: 14-34
- Lesson Summary: 14-35

### Lesson 3: Optimizing and Troubleshooting Active Directory Performance
- Optimizing and Troubleshooting Active Directory Performance: 14-36
- Troubleshooting Active Directory Performance with the Directory Service Log: 14-37
- Troubleshooting Active Directory Performance with the Performance Console: 14-41
- Lesson Review: 14-42
- Lesson Summary: 14-43

### Part 2 Prepare for the Exam

#### 15 Planning and Implementing an Active Directory Infrastructure (1.0)
- Tested Skills and Suggested Practices: 15-3
- Further Reading: 15-5
- Plan a Strategy for Placing Global Catalog Servers
  - Objective 1.1 Questions: 15-7
  - Objective 1.1 Answers: 15-10
- Plan Flexible Operations Master Role Placement
  - Objective 1.2 Questions: 15-12
  - Objective 1.2 Answers: 15-15
- Implement an Active Directory Forest and Domain Structure
